

- Fully automatic; opens dies to release completed fitting assembly
- Fast actuation; capable of 5-second cycle time
- Three power supply options for a broad range of production needs
- Weight: 131 lbs (59.4kg). (option 1&2)

**OPTION 1-PART NO: 4530-009S0**

- 1HP, 60Hz, 115/208/230V Single Phase Motor; Medium Duty

**OPTION 2-PART NO: 4530-009S1**

- 1HP, 60 Hz, 230/460 V Three Phase Motor; Medium Duty

**OPTION 3**

- For Heavy Duty, continuous high speed production assembly, the Mark IX (a) can be equipped with a high capacity power unit (b)

**PART NO: 4530-009S4**

(a) Mark IX swaging machine without standard power supply

**PART NO: 453C-00020**

(b) Commercial duty hydraulic power unit with 5HP three phase 230/460 volt motor, 5 gallon reservoir; 4.1 GPM displacement
